

## walk two waterside wander

Starting at the corner of Waterside North, walk alongside the river on the path. Take care here as the path is uneven in some parts. Walk to the end and onto Stamp End. Keep on the path, passing under the bridge. Turn right onto the bridge that connects Waterside North and Waterside South. There is no pedestrian path over the bridge so be extra cautious when walking over. Turn right onto Waterside South. Follow the pedestrian path on the left hand side of the road and walk to the end. This brings you back to Waterside North.
