D Statutory Declaration

 - b) that that householder owns that horse
 - c) that the horse will not be used for commercial purposes
- 2 A Statutory Declaration must be made in front of a Solicitor or a Commissioner of Oaths.
- 3 A false declaration could lead to an individual being liable to prosecution and the horse itself will be liable to be removed from the Commons pursuant to section 17 of the Lincoln City Council Act 1985.

E Identification of a horse

1. Each horse must have a micro-chip serial code linked to a passport in order to be registered on the common.
2. It is the responsibility of the owner to ensure that this micro-chip is implanted prior to the veterinary check required by the Council
3. The fee for this micro-chip is payable by the owner directly to the veterinary surgeon.

F Indemnity

1. The Owner fully indemnifies the Council against all claims made by a third party, for damage to property or injury or other liability, claimed to be caused by the actions of the Owner's Horse on the Commons. Owners are advised to ensure that they have insurance in place in respect of the horse being put to pasture on the commons.

G Responsibilities of Owners regarding the horse

1. It is the Owner's responsibility to obtain and submit to the Licensing Officer for approval, a signed and stamped certificate issued by a qualified Veterinary Surgeon which certifies the following:
 - a) The vet has examined the horse referred to in this application and to the best of their knowledge and ability have found it to be free from disease.

2. It is the Owner's responsibility to ensure that their horse remains healthy and free from pests and diseases. The Owner must, therefore, regularly check that their horse is healthy. If the Council considers that an Owner has been negligent towards the health of the horse, it will refer the matter to the appropriate agencies and may refuse to allow the Owner to pasture a horse on the Commons.
- 3 Infected horses should be removed from the Commons immediately and the Council's Contractor informed.
- 4 It is the Owner's responsibility to ensure that the horse has sufficient food.
- 5 No horse shall be tethered on the Commons.
- 6 No horse shall be placed on the Commons unless it is over one year of age.
- 7 The Owner shall not permit a mare to give birth on the Commons. To ensure the welfare of the mare and the foal, the mare shall not be allowed to return to the Commons until 6 months after giving birth.

8 If the Council incurs any veterinary bills or other expenses in relation to the horse, these may be recharged to the Owner.

If any of these Conditions are not complied with, the Owner's horse may be impounded and the expenses incurred in keep and removal will be charged to the Owner.

In addition your right to graze horses on the commons in the future may be affected.
